The latest pool fence system designed to give you more time for fun and less time cleaning.

PoolPerf®

Pool Perf® looks fantastic and provides the benefit of being low maintenance with amazing airflow and incredible durability.

It is easy to see why it is such a popular choice for tough Australian conditions.

Use our Pure Perf® for great transparency or choose a design to make a statement.

Gum design with core drill channel fit system shown

Pool Perf is the ultimate pool fence system that is built to last made from corrosion resistant marine grade aluminium. The clever design saves you time while installing and cleaning, you just have to hose it off to clean.

Enjoy fresh breezes with our Perf Safe® 63% open area punch pattern. There are no holes greater than 10 diameter for compliance.

There is no compromise on safety as Pool Perf has been independently tested to AS1926.1. Each job comes with a Form 15 or Australian Standard Test documentation to ensure you meet compliance.

Check out our website for a range of designs and inspiration for your next pool fence project.
